Your 30-day CELPIP plan

Daily tasks, review checks and a place to track progress

This plan covers all four skills in CELPIP-General. Most days use 45-60 minutes. A lighter session can take 25 minutes: attempt a small task, review one error and apply the correction. Full mock days need a separate uninterrupted block of about three hours.

Adjust the schedule using fresh practice evidence. A familiar answer or a completed checklist does not prove readiness. The schedule does not guarantee a score increase.

Use the resource links for each day. Public exercises, signed-in practice and full mocks have separate access rules. Check access before scheduling a session.

My test date: _____ My daily study time: _____

Targets: Listening _____ Reading _____ Writing _____ Speaking _____

prepex.ai/celpip/30-day-study-plan

[ ] Day 1: Find your starting point

Attempt one Reading part and one short Speaking task before looking at explanations. Record your target for each skill and the time you can realistically protect.

Review: Write one observed difficulty for each attempt, with an example rather than a general label.

prepex.ai/celpip/learn/strategy/target-and-diagnostic

[ ] Day 2: Read an email carefully

Complete Reading Correspondence. Follow the relationship between the original email and the reply; mark the evidence for each answer.

Review: Explain one tempting wrong answer and the phrase that rules it out.

prepex.ai/celpip/practice/reading-part-1-correspondence

[ ] Day 3: Listen for a decision

Attempt Problem Solving. Keep separate notes for the problem, rejected suggestions and final decision.

Review: Replay only after the attempt; identify where a speaker changes or qualifies a plan.

prepex.ai/celpip/practice/listening-part-1-problem-solving

[ ] Day 4: Write with a clear purpose

Write an email under the task conditions. Before drafting, name the recipient, purpose and requested points.

Review: Highlight the sentence that fulfills each instruction; revise one vague request.

prepex.ai/celpip/practice/writing-task-1-email

[ ] Day 5: Develop spoken ideas

Practice Giving Advice and Personal Experience. Record your response, then listen once without reading a transcript.

Review: Choose one advice point or event that needs a reason or a concrete detail.

prepex.ai/celpip/speaking-practice

[ ] Day 6: Make a survey choice

Write a survey response. Support your choice and explain a relevant difference from the alternative.

Review: Underline a reason and its supporting example. Replace any paragraph that merely repeats the choice.

prepex.ai/celpip/practice/writing-task-2-survey-response

[ ] Day 7: Review the first week

Read the week's error notes and choose one priority for each skill. Spend a lighter session revising work instead of starting a mock.

Review: Can you identify the exact mistake and demonstrate a correction? Schedule extra time for the least secure skill.

prepex.ai/celpip/learn/strategy/plan-produce-review

[ ] Day 8: Use a diagram accurately

Attempt Reading to Apply a Diagram. Check the visual and written conditions together before choosing an answer.

Review: List every condition needed for one missed item; distinguish missing information from a contradiction.

prepex.ai/celpip/practice/reading-part-2-apply-a-diagram

[ ] Day 9: Follow everyday conversation

Attempt Daily Life Conversation, then summarize the relationship, purpose and outcome in your own words.

Review: Compare your summary with the transcript after submission and check one implied meaning.

prepex.ai/celpip/practice/listening-part-2-daily-life-conversation

[ ] Day 10: Describe and predict

Practice Speaking Tasks 3 and 4. Describe visible facts first; support predictions with a specific clue.

Review: Listen for unsupported guesses and repeated phrases. Make one clearer recording of a different scene.

prepex.ai/celpip/speaking-samples

[ ] Day 11: Make vocabulary usable

Choose ten unfamiliar entries from the vocabulary collection. Write five original sentences and use five phrases in a short spoken answer.

Review: Cover the meanings and recall them later. Keep only phrases you can use naturally in the chosen situation.

prepex.ai/celpip/vocabulary-pdf

[ ] Day 12: Match meaning to a paragraph

Attempt Reading for Information. Give each paragraph a short purpose label before reviewing your answers.

Review: For a wrong match, find the missing or altered part of the statement; do not rely on a shared word.

prepex.ai/celpip/practice/reading-part-3-information

[ ] Day 13: Explain information clearly

Complete Listening for Information. Note how examples explain the main topic.

Review: Retell the explanation briefly and check whether you preserved its important relationships.

prepex.ai/celpip/practice/listening-part-3-information

[ ] Day 14: Check progress on fresh work

Choose fresh tasks in the two weakest skills from the Practice Hub. Use the same timing as your earlier attempts.

Review: Compare recurring errors, completion and clarity. Familiar answers are not evidence of improvement.

prepex.ai/celpip/practice

[ ] Day 15: Run a midpoint mock

Reserve an uninterrupted block of about three hours for a four-skill practice test. Follow the stated access rules and test conditions.

Review: Record where concentration or timing failed. Save detailed review for the next day if you are tired.

prepex.ai/celpip-practice-test

[ ] Day 16: Review the mock

Review the completed mock by section. Locate evidence for objective errors and inspect your own Writing and Speaking responses.

Review: Choose the two issues with the clearest evidence. Adjust the remaining schedule around them.

prepex.ai/celpip/learn/strategy/target-and-diagnostic

[ ] Day 17: Track viewpoints in reading

Attempt Reading for Viewpoints. Separate the writer's position from a reader's reaction and keep qualifications intact.

Review: Explain an answer using evidence from both texts when the question needs both.

prepex.ai/celpip/practice/reading-part-4-viewpoints

[ ] Day 18: Hear the news accurately

Attempt Listening to a News Item. Separate events already completed from proposals or future plans.

Review: Check one wrong completion against the recording's time, actor and condition.

prepex.ai/celpip/practice/listening-part-4-news-item

[ ] Day 19: Persuade and handle a conflict

Practice Speaking Tasks 5 and 6. Compare options using a shared criterion; explain a considerate decision in the difficult situation.

Review: Listen for the actual benefit to your listener and a clear alternative when you decline something.

prepex.ai/celpip/speaking-practice

[ ] Day 20: Revise a complete written response

Study the original email and survey revisions in the Writing 8-to-9 guide. Then revise one of your own earlier responses.

Review: Name each change: clearer evidence, more precise wording, better organization or more suitable tone.

prepex.ai/celpip/writing-8-to-9

[ ] Day 21: Take a lighter review day

Revisit vocabulary from Days 11 and 20 and listen to two of your recordings. Avoid filling the session with new exercises.

Review: Write three things that now work and one issue still worth testing on a fresh task.

prepex.ai/celpip/vocabulary-pdf

[ ] Day 22: Separate speakers in a discussion

Complete the Discussion practice. Give each speaker a separate line in your notes.

Review: Track a moment of partial agreement. Remember that this public practice uses audio and a static image; the official task uses video.

prepex.ai/celpip/practice/listening-part-5-discussion

[ ] Day 23: Follow a qualified argument

Complete Listening to Viewpoints. Note the main claim, support and any concession.

Review: Explain why an overly strong answer would misrepresent the speaker's actual position.

prepex.ai/celpip/practice/listening-part-6-viewpoints

[ ] Day 24: Express an opinion and explain an unusual scene

Practice Speaking Tasks 7 and 8. Develop reasons for an opinion, then describe an unfamiliar scene to someone who cannot see it.

Review: Check whether a listener could follow without the picture or your planning notes.

prepex.ai/celpip/speaking-practice

[ ] Day 25: Complete both Writing tasks

Reserve the full 53-minute Writing block. Write an email and a survey response, keeping planning and revision inside the time.

Review: Check instruction coverage, paragraph purpose, sentence boundaries and repeated word-choice errors.

prepex.ai/celpip/writing-practice

[ ] Day 26: Run a final rehearsal

Use a fresh full mock if available within your access. Otherwise rehearse a fresh set of tasks and accurately record its narrower coverage.

Review: Compare it with the midpoint attempt. Note persistent issues without treating a practice estimate as an official prediction.

prepex.ai/celpip-practice-test

[ ] Day 27: Review the final rehearsal

Review the errors and your own recordings before reading more advice. Choose a small number of corrections you can apply consistently.

Review: If a major gap remains, reconsider readiness and scheduling against your real deadline and CELPIP's change rules.

prepex.ai/celpip/learn/strategy/plan-produce-review

[ ] Day 28: Check documents and travel

Work through the test-day checklist. Confirm the venue, appointment details, accepted ID and travel route.

Review: Resolve an uncertainty with CELPIP now; a practice provider cannot approve an ID exception.

prepex.ai/celpip/test-day-checklist

[ ] Day 29: Keep practice light

Use a short warm-up in your weakest skill, review a few familiar phrases and check your equipment habits.

Review: Finish with one achievable task. Avoid starting a long new word list or several full tests.

prepex.ai/celpip/7-day-plan

[ ] Day 30: Prepare to arrive ready

Pack the required documents, save your confirmation and set your departure time. Read only your short priority notes.

Review: Protect sleep and arrive according to your official appointment instructions. Move this day if your actual test date differs.

prepex.ai/celpip/test-day-checklist
